Safety Notes and Warning Messages
During operation, there is a hazard of contact with a voltage of up to 100 V at the connection

cables. Installation must be carried out by skilled personnel only. Make sure that the power matching is correct. An overload will damage the power amplifier and the attenuator!
The unit is suitable for indoor use only. Protect it against dripping water and splash water, high air humidity and heat (admissible ambient temperature range: 0 - 40 °C).
If the unit is to be put out of operation permanently, take it to a local recycling plant for a disposal which is not harmful to the environment.
